核心目的

When CHIMEI was established, its founder Shi Wen-long stated that “the purpose of hard work is to pursue Xingfu.” According to this philosophy, business problems arise when companies forget this purpose, only paying attention to their processes and the work itself. Adhering to this conviction, CHIMEI has been working hard for 60 years, sharing its

success and giving back to the community. CHIMEI has not only brought Xingfu to its own employees, but also to wider society.

CHIMEI will continue to uphold this philosophy, pursuing Xingfu with sustainable management practices as the company goes global, striving

to bring Xingfu to every corner of the world. As CHIMEI grows, the company endeavors to share its achievements and Xingfu with an ever-larger community.

This is the Xingfu that CHIMEI wants to create.

願景

Going Global

致力發揮專業創造全球化的奇美

CHIMEI has a professional team, global perspective, proactive curiosity, the determination to develop leading solutions, and a commitment to serving a diverse range of global customers.

Because of this solid basis, CHIMEI wants to push itself to achieve even more, stepping up to reach its full potential.

The company will extend its reach to the rest of the world, to bring Xingfu to every corner of the globe.

To achieve this vision, CHIMEI will:

- create opportunities for employees to demonstrate their professional expertise on the world stage
- actively extend its reach to key markets around the

world to better understand the needs of the global market

- provide best-in-class solutions for a wide range of industry-leading customers globally
- continue to step up to its responsibilities in global environmental sustainability, health care, eco-friendly production and other Xingfu causes.

品牌催化劑

幸福 [Xingfu]: Well-Being Through Contribution

This philosophy drives CHIMEI to gain a global perspective professionally, and to support the planet, local communities, and the whole of society.

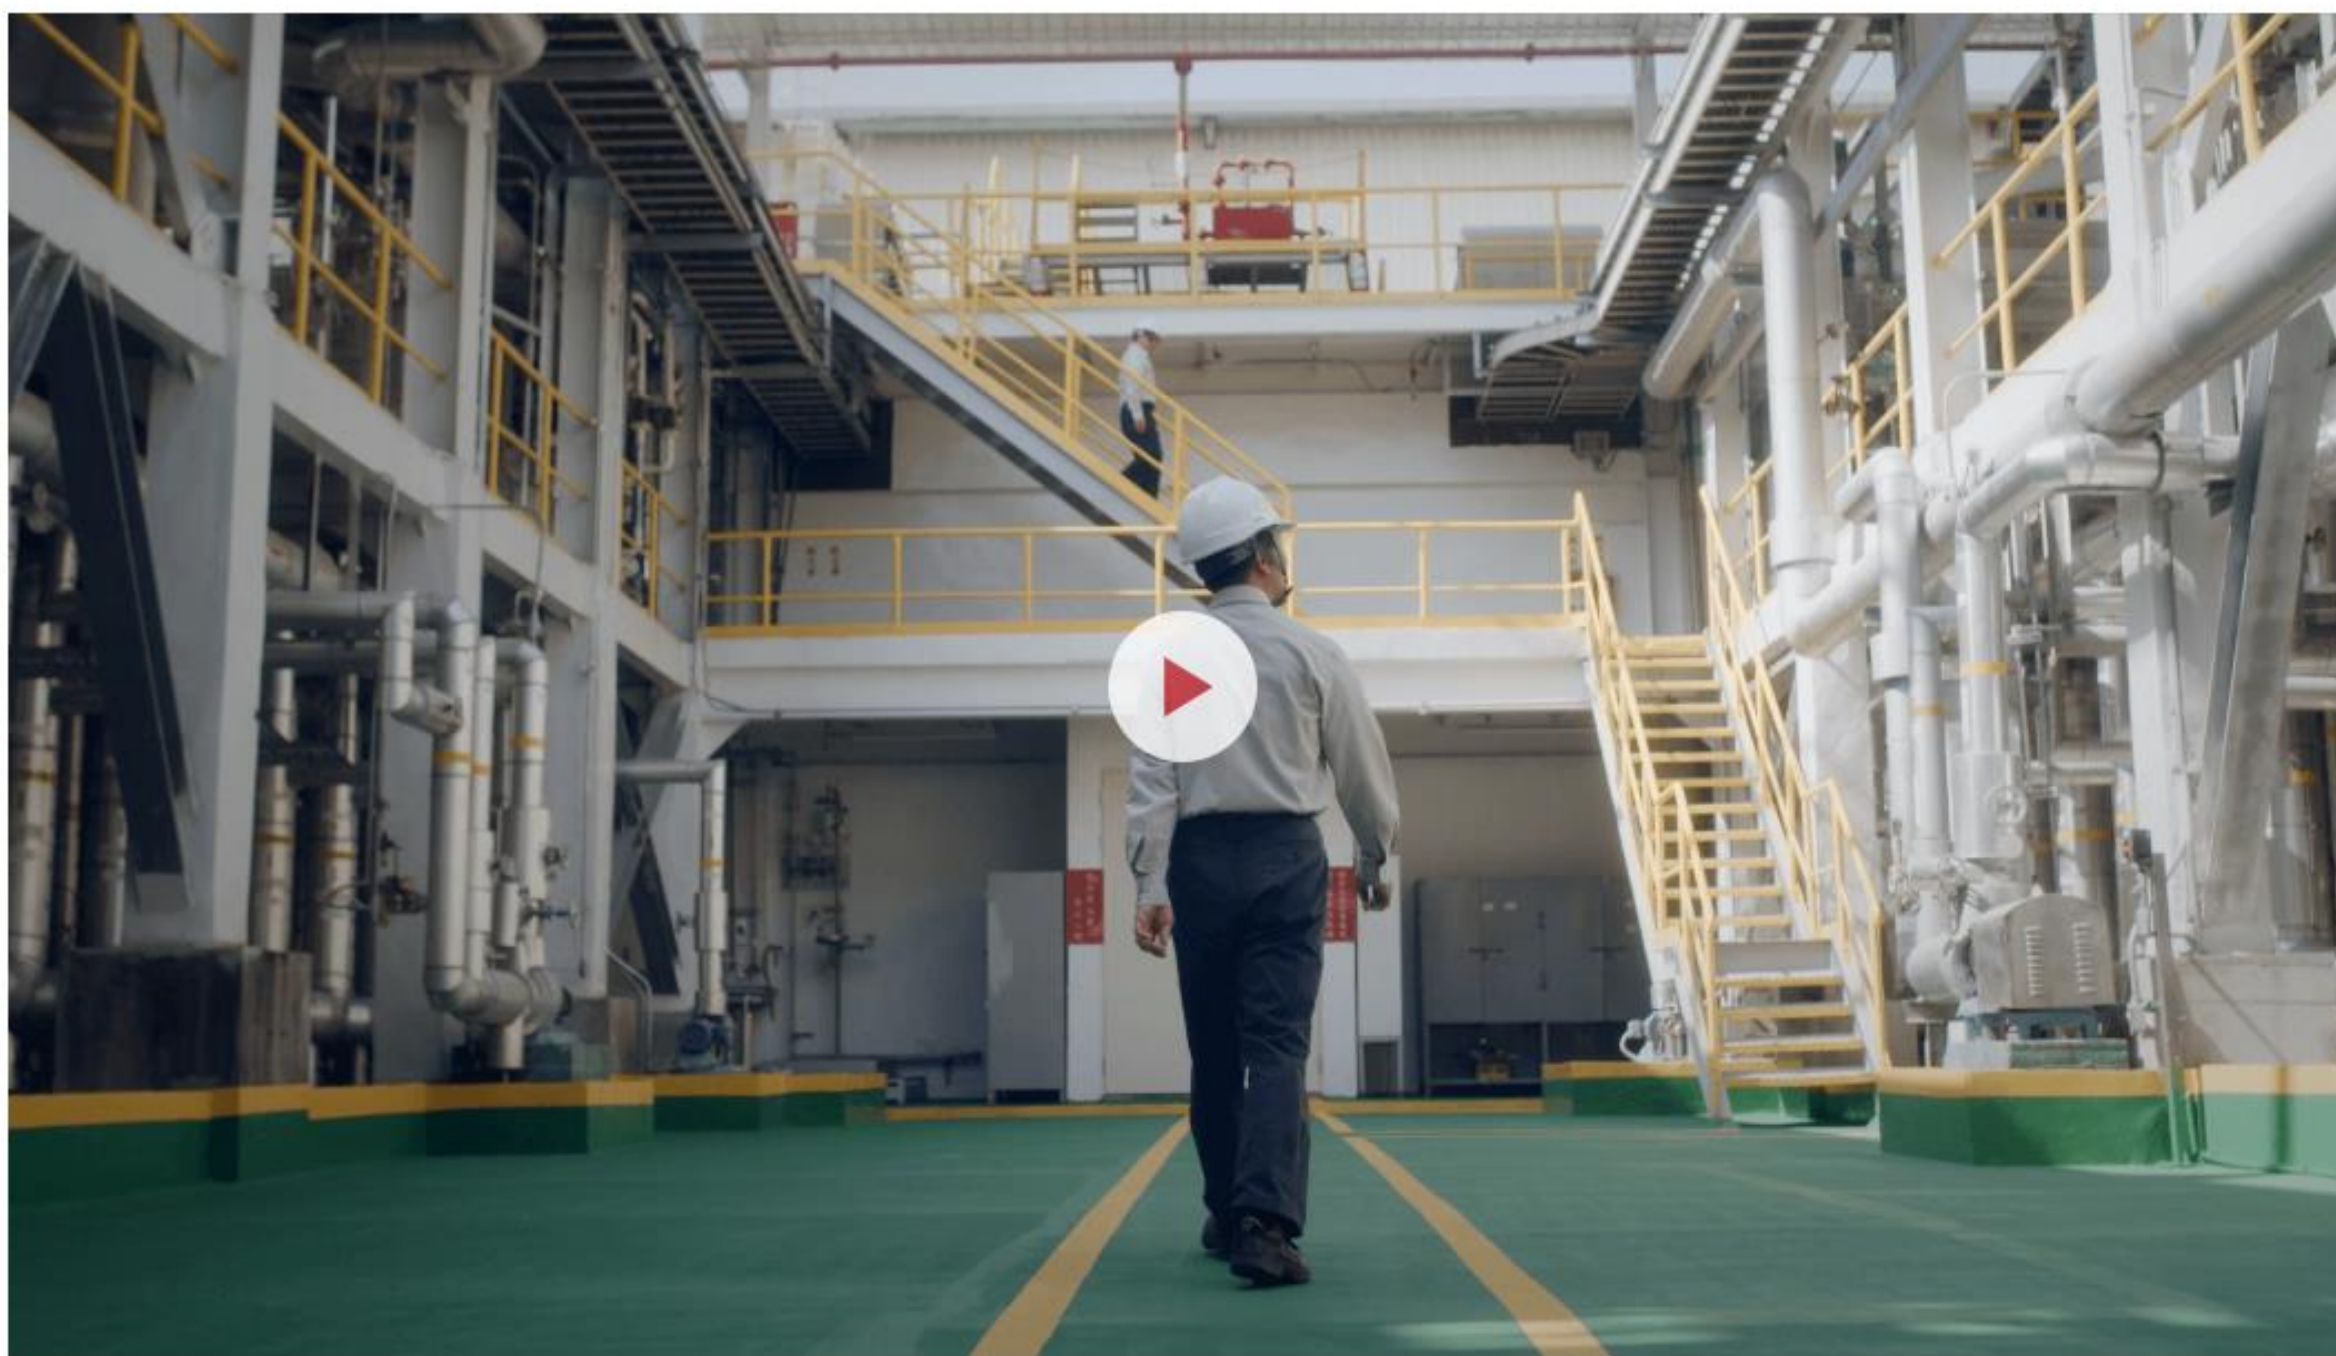

CHIMEI's Xingfu attitude should not be kept in-house. The company's responsibility is to make Xingfu expand infinitely, and to go above and beyond to make the world a better place. To achieve that vision, CHIMEI's Xingfu philosophy must be communicated to a global audience.

CHIMEI must:

- maintain a safe and secure working environment for employees
- create opportunities for employees to develop their professional expertise
- demonstrate its care for humanity and the planet by minimizing its environmental impact
- minimize emissions via energy saving initiatives and reduce waste in production processes
- convey the beauty of culture and art to every corner of the world, to advance humanistic care
- step up to its responsibilities to protect and promote the global environment, humanity, medical care, eco-friendly production and other Xingfu causes.

創造永續幸福的世界

「讓幸福充滿世上每個角落」，是奇美實業成立以來的核心目標。我們肩負起世界公民的義務，透過兼具創新、節能與環保特性的材料，以及計畫周全的社會回饋作為，以盡責的心態與實際行動為社會大眾的福祉盡一份心力。

品牌聯想

Global Perspective

全球觀

Strengthening CHIMEI's global perspective is an important aspect of stepping up the company's participation in the overseas market, as an international outlook is a must-have for going global.

Whether through case studies, R&D success stories, or visual design, CHIMEI must address its previous lack of global branding efforts, which has resulted in the company's limited overseas recognition.

CHIMEI's protection of the earth's resources, its attention to international environmental trends, and its ability to meet global customers' needs all demonstrate that the company does in fact already have a global perspective.

品牌聯想

Clean & Green

Climate change, air pollution, destruction of the marine environment, and wasteful use of the earth's resources are major ongoing issues. Overcoming these challenges has become an existential battle for humankind.

CHIMEI has long been a step ahead in environmental protection, maximizing resource efficiency, and reducing industrial waste and emissions. The company has invested considerable resources into green technology, green energy, green production and other green-related initiatives. These are all elements that CHIMEI can promote to differentiate itself amid fierce global competition.

CHIMEI's prioritization of environmental considerations should serve as a brand association to enhance brand preference among the company's target audience, given the increasing pressure on industrial players to step up to their environmental responsibilities.

Client-Side Innovation™

The kind of innovation CHIMEI undertakes has not been widely understood among the company's external audiences. This is due to differing internal and external definitions and interpretations of the concept of innovation.

Nevertheless, CHIMEI has been consistently stepping up to customers' demands in terms of boosting their R&D and production processes through collaborative innovation. The company's approach to creative optimization positions CHIMEI as a partner that proactively supplies a step up in innovation, as the company's expertise helps its customers' businesses thrive and advance.

Against the backdrop of the mature petrochemical industry and CHIMEI's limited resources, game-changing breakthroughs are hard to find these days. But CHIMEI has gone above and beyond to create a more valuable innovation role, by harnessing its own professionalism and R&D spirit to supply innovation to its customers. This is a competitive advantage for CHIMEI, and this unique brand of innovation should be promoted widely.

品牌聯想

Social Benefactor

社會貢獻者

Along the entire petrochemical industry supply chain, most companies compete on their skills, technology and professional expertise. While CHIMEI also competes on these aspects, the company's investment in the arts and culture, and its emphasis on humanistic Xingfu, far exceed its competitors' CSR efforts.

In the interviews conducted during the brand audit, many stakeholders mentioned that CHIMEI Museum is a major contribution to cultural preservation. This represents a respectable and differentiated brand association in this hotly contested market.

CHIMEI's emphasis on cultural education, preservation, and promotion paints an image of genuine passion and enthusiasm that is unique in the industry.

Brand Communications Guidelines

品牌溝通使用規範

CHIMEI
a step up

Xingfu 的定義

幸福 [Xingfu] : Well-Being Through Contribution

奇美的「幸福基本原則」是透過為社會做出更廣泛的貢獻來實現深厚的幸福感。我們相信，只有先努力追求幸福，才能真正取得成功。從奇美創立的第一天起，這種信念就一直引導著奇美。無論是對員工、客戶和社會的支持，還是對環境的保護，我們將所有精力都集中在更大的利益上。

Xingfu 的詮釋

Xingfu Is The Big Idea Behind Everything CHIMEI Says And Does.

But Xingfu Is Not The Focus Of All Our Communications.

**Our
Communications
Must Show That
We Pursue
Xingfu**

態度是否吻合**Xingfu**
精神(如: 保持對客戶或
同業的尊重)

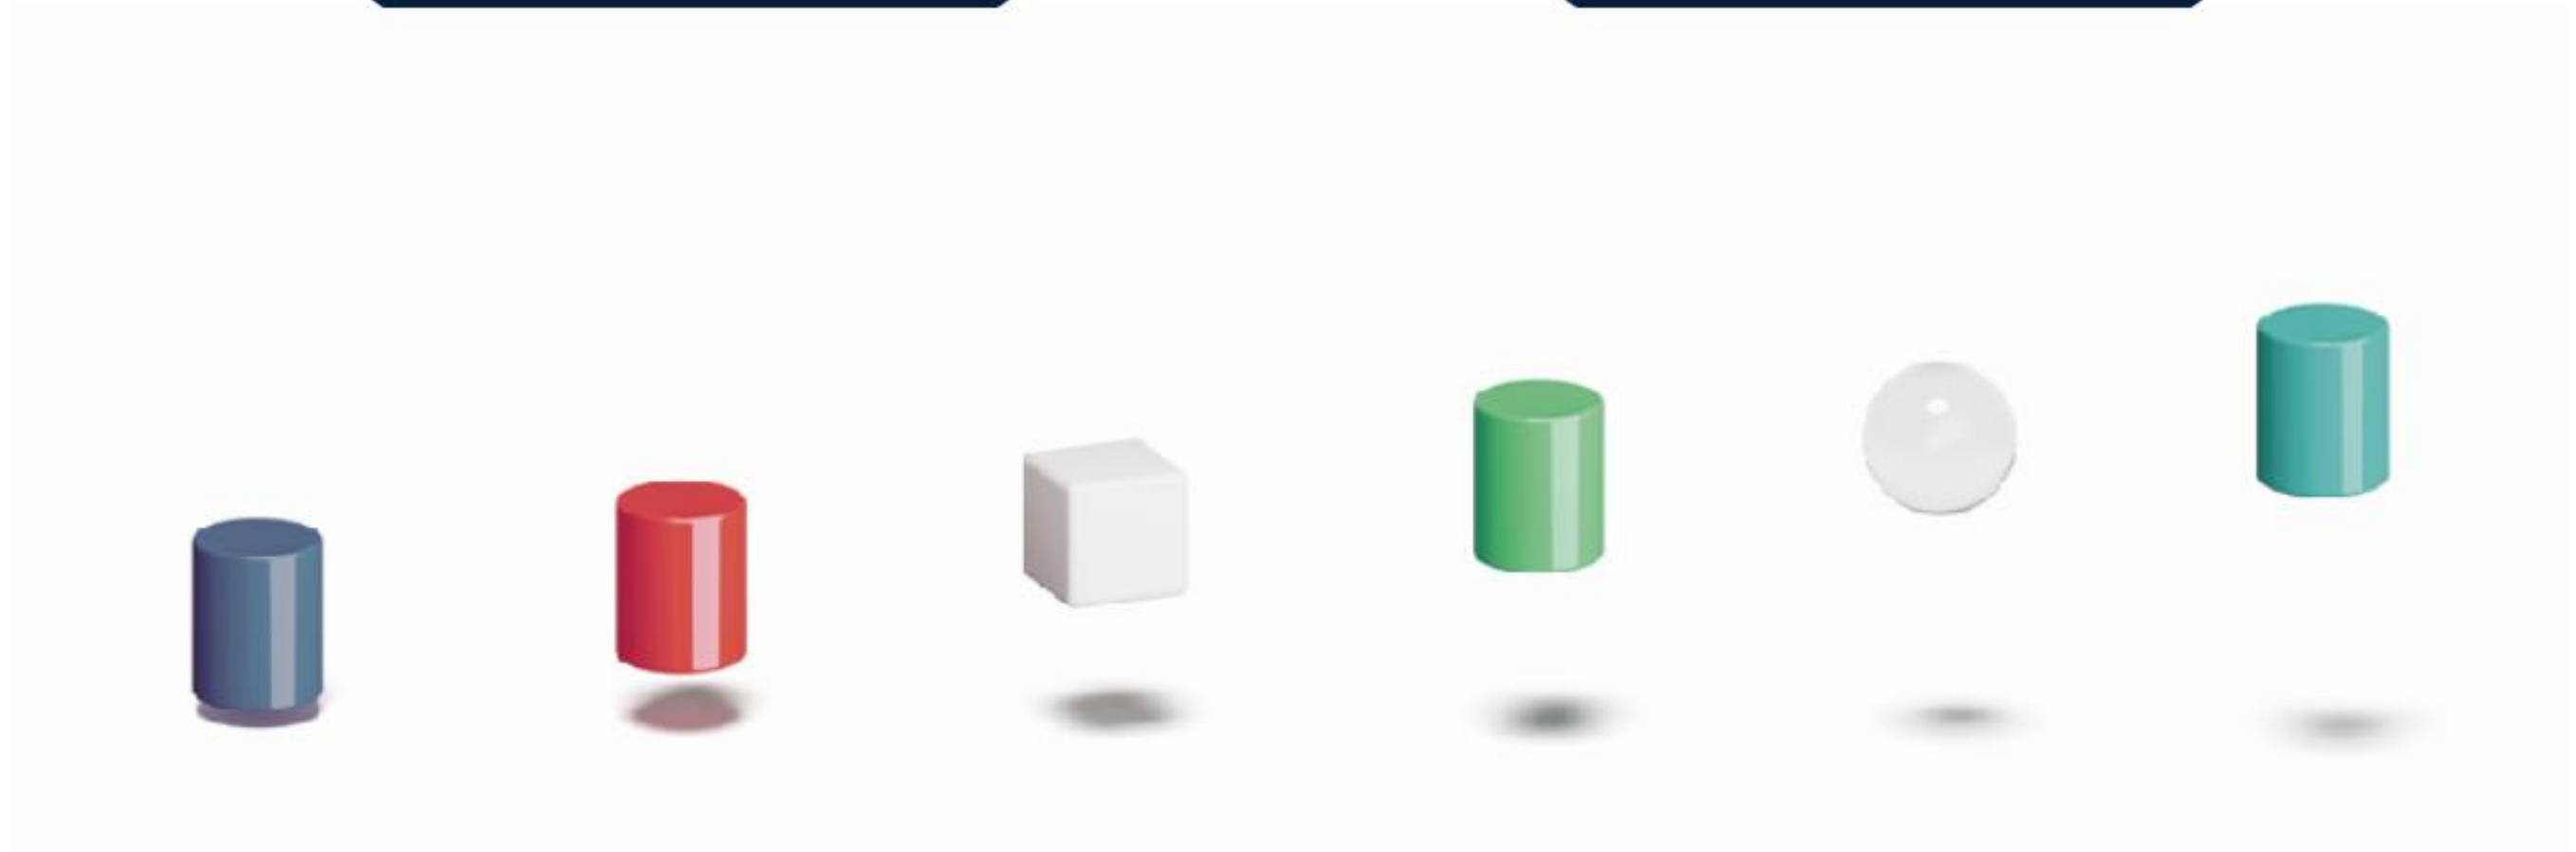

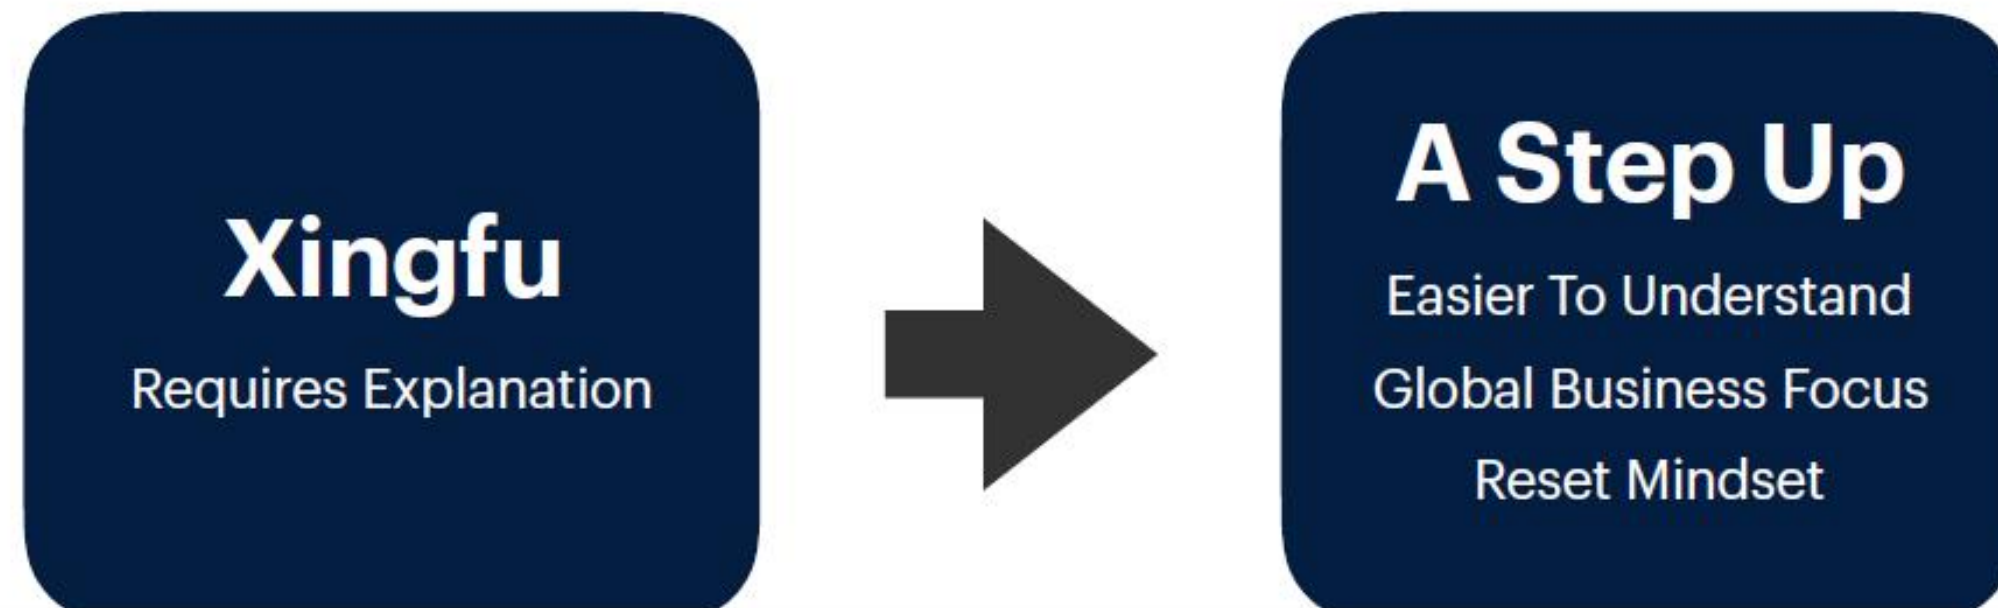

**If Our Content
Does Not Show
Xingfu, Should
We Be Writing It?**

內容是否吻合**Xingfu**
精神(如: 勿只自吹自擂,
而應多提對他人的好處)

**BUT, We Don't
Only Talk About
Xingfu**

視場合而定, 並非每次
都只能講**Xingfu**

Slogan: A Step Up

Xingfu vs. A Step Up

信仰

High-Level
(Core Purpose)

- Introductions
- Training

行動

Everyday & Detailed
(Business, Internal, etc)

- Everyday Promotion & Communication (External & Internal)

A Step Up 的定義

A Step Up

在奇美，針對任何一件事情，我們都會用盡心力，努力地更上一層樓。無論是提升我們的材料性能、或是協助我們全球客戶的產品向上突破，還是提高人們的生活品質，我們都會捫心自問，是否有盡力幫助團隊、客戶、合作夥伴甚或整個世界更上一層樓。

A Step Up 的詮釋

A Step Up

Aim Higher
Work Harder
Take On Responsibility
Encourage Others
Empower Others

A Step Up

We Are Better
You Should Be Better

A Step Up 的文字使用

Referring Directly to the Slogan

Use A Step Up to refer directly to the slogan in sentences:

CHIMEI's slogan, **A Step Up**, reflects our Xingfu spirit.

CHIMEI's slogan, **a step up**, reflects our Xingfu spirit.

Using A Step Up in Sentences

When using the words “a step up” in normal sentences, they do not function as the slogan. Follow the normal rules for sentences. You can also use the verb “to step up”.

“Because of our efforts, the customer saw a significant **step up** in new orders.”

Using the Slogan in Titles

Follow the format of the whole title:

“Achieving **A Step Up** In Environmental Protection”.

#AStepUp

Use this hashtag in this format for easy readability.

專指這是奇美的
slogan 時的寫
法:

A Step Up

使用在句子裏則用
a step up (如:
**a significant
step up** ; 或可
用動詞: **to step
up**)

Slogan 出現在
標題則一律用: **A
Step Up**

Hashtag的用法:
#AStepUp

範例

Client-Side Innovation™

**We step up
to the possibilities.**

Clean & Green

**We step up
to our environmental
responsibilities.**

Social Benefactor

**We step up
to our social
responsibilities.**

策略性使用 A Step Up

避免濫用減低效果

1

Where Will The Slogan Have the Biggest Impact?

使用A Step Up時能產生很大效果

2

Does This Context Relate to A Step Up?

內容可連結A Step Up (哪一面向? 想達成什麼目的?)

3

Would It Be More Valuable to Use Another Phrase?

思考是否有其他字眼更適合

公司正式對外的文件／簡報 溝通時語氣需一致

The Target Audience

Our target audience are B2B buyers and our industry partners. They are experts in their fields, and know what they are talking about.

We must show that we hold ourselves to exceptionally high standards, and are great to work with.

We can achieve this through a unified tone of voice in all our communications.

牢記溝通對象是誰，說他們關心的話

We Want to Be Recognizable

We want our audience to know when it is CHIMEI talking, wherever they find our content: on our website, on social media, in printed materials, at events and trade shows, etc.

This helps people to remember CHIMEI, and tell us apart from the competition.

維持奇美一致的說話語氣，增加辨識度

We Want to Be Trusted

If our audience can recognize CHIMEI's voice, it makes us that much easier to trust.

Our audience will know what to expect from us, helping them create a positive connection with the brand.

當奇美的風格能夠被辨識，奇美也更能被信賴

需避免出現的溝通方式

Don't Be Overly Competitive/Feisty

For example, while we say our environmental and social contribution strategies have always been “ahead of the curve”, we do not single out specific competitors for not keeping pace. This is not in the spirit of Xingfu.

勿顯得爭強好勝，提出別人不足之處

Don't Tell Other Companies What to Do

While we encourage our customers and partners to step up, we never tell them that they should be doing better. A Step Up means that CHIMEI wants to do better. It means that CHIMEI wants to help others to do better. It does not tell others they should be doing better.

勿好為人師，認為別人應做什麼

Don't Use A Step Up in Every Sentence

While the phrase can be used in many different ways, we want to avoid overusing it. This will dilute the message and soon make it meaningless. Use A Step Up where it will have the most impact. We can use other words and phrases to reflect the same meaning and spirit in the majority of cases.

勿常隨使用A Step Up，降低其價值

Don't Be Motivational & Aspirational When It's Inappropriate

For some official documents and communications, this tone of voice will be inappropriate — such as legal contracts or urgent/emergency announcements.

奇美的品牌溝通風格不適合用於某些文件，如法律合約或緊急聲明中

範例

"We've always believed in pursuing Xingfu. That's why we challenge ourselves and others to aim higher and achieve more, everyday."

品牌介紹 (長版)

中文版參照官網/關於我們/公司簡介

CHIMEI: A Taiwan-based Performance Materials Company

Founded in 1960, CHIMEI has long been known as the world's largest vendor of ABS resins, PMMA resins and optical sheets.

Today, we design and manufacture a wide range of cutting-edge performance materials, including advanced polymer materials, synthetic rubbers, and specialty chemicals, that raise our global customers' products to the next level.

Client-Side Innovation™

The world's leading companies seek out CHIMEI to boost their products' performance and durability, find a breakthrough in aesthetics, raise their production efficiency, and reduce their environmental impact.

Through Client-Side Innovation™ we develop creative new applications for our materials that make our customers' products stand out.

Harnessing our proactive curiosity and extensive knowledge of the industry, we deliver a step up in product performance that helps our customers realize their full potential.

幸福 (Xingfu): Well-Being Through Contribution

CHIMEI's foundational principle of Xingfu refers to achieving a deep sense of well-being by contributing to wider society. It is by pursuing Xingfu first that we achieve success.

This belief has guided CHIMEI since day one, leading us to focus all our efforts on the greater good, by supporting our employees, customers, and communities, and by protecting the environment.

Clean & Green

When it comes to environmental protection and eco-friendly production processes, we have long been ahead of the curve.

We set ourselves high standards, investing heavily in clean and green processes to limit our waste and emissions to radically low levels. We also rigorously maintain the latest ISO certifications relating to energy, greenhouse gases, and environmental management across all our facilities.

And yet we aim still higher. We are on track to achieve 80% reclaimed water usage in our production processes, 80% energy self-sufficiency from solar power and natural gas, and 98% sludge waste reduction.

A Step Up

At CHIMEI, we strive to achieve a step up in everything we do. Whether advancing the performance of our materials, elevating our global customers' products to the next level, or enhancing quality of life around the globe, with every undertaking we ask ourselves whether we are helping our teams, customers, partners, or the wider world to achieve A Step Up.

品牌承諾 言行一致

The background of the slide is a light gray with a pattern of scattered, three-dimensional cylinders. The cylinders are in two colors: a vibrant blue and a bright green. They vary in size and are oriented in different directions, some standing upright and others tilted. Each cylinder has a soft shadow cast beneath it, giving them a sense of depth and making them appear to float above the surface. The overall effect is a modern, geometric, and celebratory aesthetic.

Thank You
